JANUARY 2012

Dear Friends,

We are in a supernatural flow of anointing and miracles here in Mozambique. Every year Bible School is different, but always the Presence of God is very tangible. This year it seems that the students caught the fire of God quicker than ever before. Their response to the Word and worship is strong. Though some of them came very wide-eyed and even nervous, (many have never made such a long journey to a strange place in their life); they have opened up their heart and soul in a short space of time. All over campus groups are gathered together praying in-between class and other activities. Shouts of victory and praise resound in the camp and earnest supplication rises up with the wind and is carried from the bush forest area where they love to pray, into our homes and office. Is there any nation that can pray and worship like Africa? It is a sweet, sweet sound of innocence, expectation, sometimes weeping, sometimes great joy.

As a team we have never been so ready for a move of God and we are seeing it happen. Our church in town is caught up in Holy Ghost fire, you can read all about it in the testimonies included in this mailing.

Always we are aware of the power of unity that comes through connecting with one another and connecting with God. Each one of us, a link in the chain connected together; power released as through an electric wire turned on by the Holy Spirit; the connection with the well of living water that floods the whole campus and refreshes every place we go. Then there is our very valuable connection with you, our friends and supporters in far and not so far away, brought near by the Spirit of God.

With all our heart we thank each one of you who is connected with us in some way. Your connection carries something precious from God to us, and brings in a return back to God. May you be blessed with a double portion of every good thing as He multiplies blessing upon blessing to you, in Jesus' wonderful name. To God be the glory, great things He is doing!

Connected to you,

Rod & Ellie and all at AWYesu

Luke 4:18

"The Spirit of the Lord is upon Me, Because He has anointed Me To preach the gospel to the poor; He has sent Me to heal the broken-hearted, [To proclaim liberty to the captives And recovery of sight to the blind, To set at liberty those who are oppressed; To proclaim the acceptable year of the Lord."

HANDS & FEET FROM MISSISSIPPI

Thanks to our Mississippi Partners who funded the visit of Roger Anderson. Thank you Roger for spending two and a half weeks with us at Inhaminga and helping with practical needs. You were a great help and a blessing to us all!

Roger's visit came in response to our request for men who have a mind to work and a heart to serve. We have a lot of women who want to visit but few men. Mostly, women cannot do the practical stuff that is needed. In order for all the teachers and preachers and child/youth ministries to get around, wheels are needed. Wheels need to be constantly maintained and serviced, not easy where the road are beyond bad and spare parts are hard to get. The campus houses 100 people—maintenance, construction and improvements take a lot of work. Any more "Mighty Men" out there? Please come over into Mozambique and help us. We will be good to you and you will be blessed also!

SNAKES ALIVE!

The other day we gathered in our living room for a special IMI session (Watching a DVD from International Miracle Institute, Pensacola). As we all entered the door of our house Rod was stopped by one of our workers who had just been bitten by a snake. He had brushed aside a bush and was bitten on the upper arm. There was already a lump on his arm. Pray, pray, pray...we arrested the venom, commanding it to shrivel up and die. Rod and Lino took him to Inhaminga hospital where they have snake bite serum. He was out the next day and is doing fine. There were four other people in the hospital bitten by snakes the same day. Five in our small village in one day? This is ridiculous! We enforced our dominion over this place. People die here of snake bite every year; we have sometimes killed three deadly puff adders in one day on campus.

So that was a powerful demonstration of IMI in a practical sense to our session, all part of the meeting. We played the DVD and experienced how the anointing can flow into a room through an anointed recorded session. Lamar and the worship group led us in, "Out of your belly shall flow, shall flow, shall flow, shall flow living waters!"

We usually have our own worship but the Holy Spirit had directed us to do things differently to bring a fresh awareness of purpose and destiny through our connection the global body of Christ. Dr. Christian began to speak an exhortation and we interpreted it into Portuguese as fast as possible. The team was blown away. After watching the DVD for 30 minutes—stopping it some to clarify stuff to those who had their eyes popping out and mouths hanging open, while transmitting to them that they are part of this Global Ministry and part of this mighty army of God—we began to lay hands and impart anointing. To cut a long story short, everyone ended up on the floor crying and laughing, whatever the Spirit willed. The anointing over the DVD was POWERFUL.

It is good to do things different! The snake incident was quite a shock, one doesn't normally walk into a meeting encountering a miracle at the door because of snake bite.

Then hearing the power and authority of Doc Harfouche's voice really wound us up and set us loose into believing the impossible. All things are possible. Through God, all things are possible!

STEFFI'S TESTIMONY AFTER VISITING MOZAMBIQUE.

I have been having personal revival since Africa. And I'm spreading it. The truth sets us free; I received a new measure of truth in Africa.

So where do I begin? How about the deodorant story! HA! Remember my experience with the sticky lichen deodorant and the medicated gold bond powder? (PS. Steffani bought a natural deo that made a sticky, caked mess under her arm! Nowhere at Inhaminga to buy other deo. Ed).

Well, God used that crazy experience in a huge way. Kathy said she had never laughed so hard in her life and it brought breakthrough to her.

I asked God about it and He responded to me, "Steffani you asked me—where did my joy go?" I grew up with such joy in my life with my family and I felt it slipping away, so before Africa I had been inquiring of the Lord about my joy. Well joy came and it came in the funniest way—through sticky deodorant/medicated powder and the story that goes with it.

After returning home, I was asked to give a testimony. Well Kathy teased me and said "share about the deodorant because it's so funny." I said "No way!" However, I did and as I began to share, people began to laugh! I could feel the Presence of the Lord so strong as I opened my mouth (just like you spoke and prayed over me); the delivery of a message and the testimony came out. As I heard it in my spirit, it came out of my mouth. Wow!

Well there was a lady sitting on the front row listening. She had a rare disease all of her life that didn't allow her to sweat. She was under a doctor's care. She had used one deodorant for years and years—she just didn't need it! As I began to share my testimony, she began to sweat. She thought to herself, "Why am I wet under my arms? What is that? I feel different!" She was completely healed of that disease as I spoke. She gave her testimony the next week at Bible Study and we all laughed and praised the Lord together! Can you believe it? What a funny sense of humor our Lord has. I love it! Here I was flapping my arms telling of my experience and Jesus healed a lady from a non-sweating disease. And on top of that, my joy has been made full! I love Jesus.

A boldness has come upon me. One morning I heard the Lord say, "go to Target this morning before Bible Study." Well, I am about to walk into Target and a young lady walks out the door limping. The next thing I know I am saying to her, "You are the reason I am here at Target." She just stared at me. I said, "Why are you limping?" She responded, "I fell twice on the same knee and I'm in great pain." I said, "Well Jesus told me to go to Target this morning and I thought it was for supplies, but it is for you. Can I pray for you to be healed?" I knelt down right there and prayed for her. We cried tears of joy together as Jesus touched her and I explained about Jesus and His love for her. She couldn't believe that He would send a stranger to meet her. God sees!

This is what I am talking about! This is what is happening to me and it's wonderful. A fire—an all consuming fire—a love like never before has captured me. I knew my life would be forever changed by going to Africa but I didn't know how!

Every life touched for Jesus changes and touches generations! I'll never forget the lady tapping me on the shoulder in Inhaminga during water baptisms. We couldn't speak one another's language

but we knew exactly what was being said. She pointed to a girl being baptized. It was her daughter. Then after a few more ladies were baptized, she tapped me on the shoulder again as she was taking a small child from a young momma. She had another daughter getting baptized. And her granddaughter was watching as she was being held! Generations changed for Jesus! WooHoo!

Being in Africa with you and the amazing ladies and the presence of the Lord changed me. I continue to thank the Lord daily for setting me free. I thank you for all that you did for us. The love you showed. The kindness. The truth you gave. The prayers. Driving us around and showing us the beautiful people of Africa. Gorongosa Park. The ocean. The meals, coffee and tea. The warm beds and homes we stayed in. The delicious bread and bananas. The laughter. The grace. The stories and history that was shared. The gas you used for the miles we drove. Your hearts. The worship. Communion and dancing. The impartation and prophetic words. You shared Jesus. And so much more. Thank you!

DIOGO (teacher at Inhaminga) We started last Monday 16th with the 6 months Bible School. We have a good group of students really interested in the word of God. They are very open to receive and to flow. Now we are teaching spiritual foundations and I already had the time to teach about the Love of God on Monday. They are really participating during the classes, asking questions and giving their own point of view about something when asked, and I see that as most of them are this way, the others we can see that are more closed and shy to speak in the group will be quickly moved to participate too.

We are having a good time in praise and worship during devotions and meetings at night, and most of the students are flowing with the worship group in front, praying, worshipping and praising the Lord with singing and dancing. We also have a wonderful time together as team in the last Wednesday and Thursday at Spirit School and Team Cell. I felt the touch of Jesus in my face last

Thursday at Team Cell and He spoke to my heart about His love for me and his cleansing inside of me for me to liberate the truth through my mouth.

MIRACLES AND MORE MIRACLES!

The anointing has been accelerating this entire month. The church has been fasting 25 days, meeting for prayer 3 times a day. Our Team meetings have been fire from the altar, each one of us catapulted to another level in mighty demonstration of power. Each meeting has been more amazing than the last!

This week's visits to the hospital have emptied a ward of 8 people...sent them home healed, others have been healed also. (Last week a ward was emptied also. ;o)

A few days ago while the Church was in prayer Mariano, pastor of Inhaminga wa Yesu said, "I am going to the hospital to do miracles, who is going to do miracles with me?" About 52 shouted "YES" and off they went. They walked from the church to the hospital in pouring rain while singing praises to God. People came to their doors to stare at this group singing in the rain.

The hospital staff said, "you can't all come in here, too many of you, not visiting time." Mariano responded, "We have come to do a job here, we will divide in groups and send our people in different directions so we are not all together." The hospital staff agreed. A 14 year old boy was in a wheelchair with badly swollen leg, could not stand to his feet because of pain. He was bound about the wrist and ankles with witchcraft fetishes. He agreed to have them removed, they prayed for him, he stood up and walked without pain. Others were delivered of fetishes and evil spirits and were healed. Also a woman with a hugely swollen leg from poisonous snake bite was saved, delivered and healed. She too was covered with witchcraft stuff. These people are making sacrifices to the devil daily. Even pastors who are not trained in the Word of God are bringing fetishes to their sick members in hospital to 'add' power for healing.

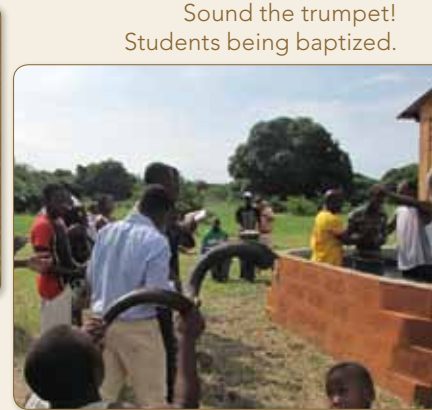

The beginning of revival during 25 days of prayer and fasting

How beautiful are the feet of them who come to hear good news.

The men pray for Roger before he returns to the USA

Making up our Bible School Books

Bokka finishes the thatching.

Man died, is raised from the dead, then died again about 8 hours later. The biggest miracle is, he got saved!

A woman came and said, "Please come and pray for my husband, he is very bad, he is dying, he can no longer talk, he has been lying flat for days." They went to the man and said, "What is your name?" He could not respond. After consistent exhortation he said, "Paulo". The name came with great difficulty. "Where are you from?" "Dondo."

Mariano told him to get up and walk and to everyone's amazement, he did. Then he got very tired and had to sit down on another bed as he was far from his own bed. His head collapsed onto his shoulder and he died. Just like that! He had no breath—he was DEAD. The mother and daughter began to wail and ran out. The hospital staff came in and declared him dead.

After about 15 minutes the man suddenly gave a gasp and opened his eyes. He had come back to life!

Mariano sent a message to gather all the church members in the hospital together and sent them back to the church to where other members were still praying. "This man must come back to life, you must pray." They went to the church and all together they prayed. In the meantime the nurses came in to take the body to the morgue. "No, please leave him here, we are still praying." After about 15 minutes the man suddenly gave a gasp and opened his eyes. He had come back to life!

A few days before at one of our meetings we had challenged the team: "this week, whatever you have never done before you are going to do! Who has never healed anyone?" Some hands went up...we went through all the gifts of the Spirit, most had done them all and had seen miracles. Then I said, "Who has never raised the dead?" All hands went up. "This is the time, the time is now!" Four people shared that they had dreamed that week that a dead person was raised. "Go now and do the works of Him who has sent you." They did.

We are sad the man died again but we hold fast to the fact that he WAS raised from the dead, and next time we will know better how to secure the miracle. Perhaps he was raised but not healed, did he die again of the same sickness? Was all this so he could get saved before he died? With so much witchcraft around, was the battle for his soul greater than we had anticipated? So much to learn. **We praise God for all He is doing, all glory to His name forevermore!**

GOD IS MOVING MIGHTILY IN NACALA

NICKY: The days were full and we both had opportunities to impart into the team and students. The small groups in the afternoons were the personal touch needed to come into intimate contact with the students. Our men led them well and they experienced firsthand the need for that type of setting to offer the students time to 'personally' share. The evenings were, "Let's experience/celebrate/seal" what the day's topic was. Morning devotions are electrifying and yesterday's was the Holy Spirit's preempt to His baptism.

Valentim taught about the Holy Spirit and after one hour, he had the group stand to their feet, place their hands on their heads and led in everyone declaring they had the mind of Christ. Each student suddenly came in personal contact with the Holy Spirit. Valentim started to bounce around like popcorn, speaking in tongues and WHAM! The classroom broke loose.

Tears saturated desks and the floor. Men left their sandals 2 metres away as they ended up somewhere beyond their physical steps. The team went to the drums and marimba and started to beat out the rhythm of the heavenly song. The classroom broke out in chorus of the song being led by the leader lying on the floor. Then another song broke out, and the process started over again.

For over 2 hours, the Holy Spirit did His powerful work, releasing love and transformation within all of us. In the afternoon, we listened to the student's testimonies regarding their Holy Spirit experience. Once again, some students came and sang their testimonies as the Holy Spirit had given them a new song and once again the team launched themselves towards the instruments and started to play. FREEEEEDOM!
